

Screenshot Naming Cheat Sheet — AEM (No-SDK) Course

Purpose: To keep screenshots organized for all assignments and grading.

General Format:

week##_[section]_[description]_[yourname].png

Example:

week01_exercise_aboutus-editor_jeff.png

Rules:

- Always lowercase.
- Use hyphens '-' instead of spaces.
- Use .png format (preferred).
- Place all screenshots for a week in its 'screenshots/' folder.

Week 01 Required Screenshots:

1. week01_exercise_aboutus-editor_jeff.png — About Us editor view
2. week01_exercise_aboutus-published_jeff.png — About Us published page
3. week01_project_localwp-running_jeff.png — LocalWP app running
4. week01_project_wpadmin-dashboard_jeff.png — WordPress dashboard
5. week01_project_github-commit_jeff.png — GitHub commit history
6. (Optional) week01_project_folder-structure_jeff.png — Folder view

Referencing in Markdown:

![About Us Editor](screenshots/week01_exercise_aboutus-editor_jeff.png)

For future weeks: Increment the week number (week02, week03, etc.)

Examples for later weeks:

week02_exercise_homepage-layout_mattie.png
week05_project_custom-block-preview_melanie.png

Summary Table:

Section	Example File Name	Notes
----- ----- -----		
Exercise	week01_exercise_aboutus-editor_jeff.png	Editor view
Exercise	week01_exercise_aboutus-published_jeff.png	Live page
Project	week01_project_localwp-running_jeff.png	LocalWP running
Project	week01_project_wpadmin-dashboard_jeff.png	WP Admin
Project	week01_project_github-commit_jeff.png	Commit history
Project	week01_project_folder-structure_jeff.png	Optional
